

## **USD #374 COVID-19 TESTING INFORMATION**

USD #374 is committed to providing an avenue for all patrons to access COVID-19 testing. Our district nurse can always answer testing questions or perform COVID-19 testing procedures. In addition, our nurse will follow up on positive tests, contacting the student's household to check on the student and ensure no other household testing is needed. Our District is also committed to continuing the close collaboration with the Haskell County Health Department. We will continue to follow their guidance regarding all COVID-19 testing/quarantine protocols and reporting. For help, please call 620-675-2286 or 620-675-2277. Our District Nurse is housed at the elementary school; however, she will go to any school to help patrons.
